DETAILED ACTION

Allowable Subject Matter

Claims 39-48 are allowed.

Claims 2,4-11,13,15-38,50,51 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,3,12,14,49 are rejected under 35 U.S.C. 102(b) as being anticipated by Schneid et al. As shown in figures 1 and 3, teeth/regulating mechanism 8,9,10 is adjustable relative to the remainder of the refiner plate. As broadly claimed, the subject matter of these claims do not read over the patent.
